

# Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 02-Apr-2026

---

## 1. Administrative & Study Identification

**Full Study Title:** Expanded Access of Adagrasib (MRTX849) in Patients With Advanced Solid Tumors Who Have a KRAS G12C Mutation

**Short Title/Acronym:** Adagrasib KRAS G12C Expanded Access Program (EAP)

**Protocol Number:** CA239-0067 / 849-EAP-001

**NCT Number:** NCT05162443

**Sponsor/Company Name:** Bristol Myers Squibb

**Investigational Product:** Adagrasib (MRTX849) / Trade Name: Krazati

**Phase of Development:** Not Applicable (Phase Requirement: Trial must be in Not Applicable)

**Trial Status:** APPROVED\_FOR\_MARKETING (Approved for marketing)

**Medical Monitor:** BMS Clinical Operations Lead

---

## 2. Study Synopsis & Rationale

**2.1 Study Objective Primary Objective:** To provide expanded access of adagrasib (MRTX849) to patients with previously treated advanced solid tumors harboring a KRAS G12C mutation who cannot participate in an ongoing clinical trial. **Secondary Objectives:** To monitor the real-world safety, tolerability, and adverse event profile of adagrasib within an expanded access patient population.

**2.2 Background & Rationale** To address the unmet medical need for patients with advanced or metastatic solid tumors harboring a KRAS G12C mutation who have exhausted standard of care therapies and are ineligible for ongoing adagrasib clinical trials (such as the KRYSTAL trials). Adagrasib is a KRAS G12C-selective, covalent inhibitor with a long half-life that has demonstrated significant clinical activity and disease control in this population. This Expanded Access Program allows compassionate use access to the drug.

---

## 3. Study Design & Methodology

**3.1 Design Framework Study Type:** EXPANDED\_ACCESS **Control Type:** Single-arm **Blinding:** Open-label **Randomization:** N/A

**3.2 Planned Enrollment & Duration Target \$N\$:** N/A **Number of Sites:** Multiple Sites (United States) **Estimated Study Start:** December 2021 **Study Status:** Approved for marketing

---

## 4. Subject Selection (Eligibility Criteria)

**4.1 Inclusion Criteria** 1. Histologically or cytologically confirmed diagnosis of an advanced/metastatic solid tumor. 2. Confirmed presence of a KRAS G12C mutation. 3. Ineligible for an ongoing clinical trial of MRTX849. 4. No available or not eligible for standard of care treatment. 5. Adequate organ function. 6. CNS Metastases (within set parameters) are allowed. 7. ECOG performance status of  $\leq 2$ .

**4.2 Exclusion Criteria** 1. History of intestinal disease, inflammatory bowel disease, major gastric surgery, or other gastrointestinal conditions likely to alter absorption of MRTX849 treatment or result in inability to swallow. 2. Prior therapy targeting a KRAS G12C mutation. 3. Other active cancer.

---

## 5. Intervention & Treatment Plan

**5.1 Investigational Regimen Investigational Product:** Adagrasib (Preferred Name: adagrasib) **ATC Code:** L01XX77 **EMA Information:** [Krazati EPAR Product Information](#) **Dosage/Frequency:** Adagrasib (MRTX849) continuous daily oral dosing. **Route of Administration:** Oral (Capsule/Tablet formulation) **Duration of Treatment:** Continued until disease progression, unacceptable toxicity, or patient withdrawal.

**5.2 Concomitant & Prohibited Therapy Permitted:** Standard supportive care and medications for comorbidities. **Prohibited:** Prior or concurrent treatment with other therapies specifically targeting a KRAS G12C mutation.

---

## 6. Study Timeline & Visit Schedule

| Visit ID     | Window (Days) | Key Activities/Procedures                                                                       |
|--------------|---------------|-------------------------------------------------------------------------------------------------|
| Screening    | Day -28 to 0  | Informed Consent, Medical History, KRAS G12C Mutation Confirmation, Organ Function Labs         |
| Baseline     | Day 0         | First Dose of Adagrasib, Safety Assessments                                                     |
| Interim      | On Treatment  | Ongoing Safety Labs, Efficacy/Disease Assessment, AE Monitoring (GI toxicities, QTc evaluation) |
| End of Study | Variable      | Discontinuation visit, Final Vital Signs, IP Accountability                                     |

---

## 7. Outcome Measures (Endpoints)

**7.1 Primary Endpoint Definition:** Incidence, severity, and relatedness of Adverse Events (AEs) to assess safety and tolerability of adagrasib in an expanded access setting. **Measurement Method:** Investigator reporting based on CTCAE criteria (e.g., monitoring gastrointestinal toxicities, fatigue, and QTc prolongation).

**7.2 Secondary & Exploratory Endpoints** \* Objective Response Rate (ORR) and Disease Control Rate (DCR) in a real-world setting. \* Progression-Free Survival (PFS) and Overall Survival (OS) duration.

---

## 8. Safety & Adverse Event Reporting

**Adverse Event (AE) Monitoring:** Continuous monitoring via regular HCP visits, with specific focus on gastrointestinal effects (nausea, diarrhea) and QTc intervals. **Serious Adverse Events (SAEs):** Reported within 24 hours of site awareness per expanded access pharmacovigilance guidelines. **Data Monitoring Committee (DMC):** Internal safety monitoring mechanisms managed by Bristol Myers Squibb.

---

## 9. Statistical Analysis Plan (SAP) Summary

**Analysis Populations:** Safety Set (all patients who receive at least one dose of adagrasib). **Sample Size Justification:** N/A (Enrollment is driven by clinical need and physician requests under compassionate use rather than strict statistical power). **Handling of Missing Data:** Descriptive statistics without formal imputation.

---

## 10. Quality Assurance & Regulatory Compliance

**GCP Compliance:** This program will be conducted in accordance with Good Clinical Practice (GCP), FDA Expanded Access regulations, and the Declaration of Helsinki. **Monitoring Plan:** Routine pharmacovigilance and reporting aligned with compassionate use guidelines. **Audit Trail:** eCRF locking and safety database reconciliation.

---

## 11. Study Identifiers & Governance

**Posting ID:** 816078724077517332 **Primary ID:** CA239-0067 / 849-EAP-001 **Registry Number:** NCT05162443 **Sponsor/Lead Organization:** Bristol Myers Squibb **Study Title:** Expanded Access of Adagrasib (MRTX849) in Patients With Advanced Solid Tumors Who Have a KRAS G12C Mutation **Official Regulatory Title:** Expanded Access Use of Adagrasib (MRTX849) for the Treatment of Patients With Advanced Solid Tumors With a KRAS G12C Mutation

---

## 12. Clinical Framework (Targeted Therapy Specific)

**Disease Areas:** Advanced Cancer, Metastatic Cancer, Malignant Neoplasm **Preferred UMLS Name:** Advanced solid neoplasm **Semantic**

**Type:** Neoplastic Process **Disease Definition:** A neoplasm composed of atypical neoplastic, often pleomorphic cells that invade other tissues. Malignant neoplasms often metastasize to distant anatomic sites and may recur after excision. The most common malignant neoplasms are carcinomas, Hodgkin and non-Hodgkin lymphomas, leukemias, melanomas, and sarcomas. **Ontology Codes:** MeSH: D009369 | HPO: HP:0002664 | SNOMED CT: 1240414004 **Diagnosis Threshold:** Confirmed KRAS G12C Mutation **Medical Methodology:** Targeted Covalent Inhibitor Therapy **Optimization Target:** KRAS G12C continuous inhibition

---

13. Study Procedures & Methodology

**Management Pathway:** Expanded Access Program (EAP) / Compassionate Use **Education Protocol (HCP):** Drug safety profile (GI toxicity/ QTc prolongation) and AE management **Education Protocol (Patient):** Informed consent, reporting of gastrointestinal symptoms, dosing compliance **Quality Audit Mechanism:** Pharmacovigilance tracking and SAE reporting

---

14. Observation & Follow-Up Schedule

**Total Duration:** Continued until disease progression or unacceptable toxicity **Onsite Visit Cadence:** According to standard of care and institutional guidelines **Remote Monitoring Frequency:** Based on standard safety reporting requirements **Checklist Review Interval:** Ongoing safety evaluation at clinical visits

---

15. Sign-off & Approval

|                          |        |           |               |     |      |     |     |
|--------------------------|--------|-----------|---------------|-----|------|-----|-----|
| Role                     | Name   | Signature | Date          | :-- | :--  | :-- | :-- |
| Principal Investigator   | [Name] | _____     | [DD-MMM-YYYY] |     |      |     |     |
| Clinical Operations Lead | [Name] | _____     | [DD-MMM-YYYY] |     | Lead |     |     |
