

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	A Phase I, Multicenter, Open-label, First-in-Human, Dose Escalation and Expansion Study of AZD9592 as Monotherapy and in Combination With Anti-cancer Agents in Patients With Advanced Solid Tumors
Short Title:	First in Human Study of AZD9592 in Solid Tumors
Protocol Number:	920616827708809047
NCT Number:	NCT05647122
Sponsor Name:	AstraZeneca
Investigational Product:	fluorouracil
Phase:	PHASE1
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. Incidence of Adverse Events (AEs): Number of patients with adverse events by system organ class and preferred term 2. Incidence of Serious Adverse Events (SAEs): Number of patients with serious adverse events by system organ class and preferred term 3. Incidence of dose-limiting toxicities (DLT) as defined in the protocol: Number of patients with at least 1 dose-limiting toxicity (DLT), which is any toxicity defined as a DLT in the Clinical Study Protocol
Secondary Obj.:	1. Objective Response Rate (ORR) 2. Duration of Response (DoR) 3. Disease Control Rate (DCR) at 12 weeks

2.2 Background & Rationale

This is a first-in-human (FIH) Phase I, multi-center, open-label, study of AZD9592, in patients with advanced solid tumors. The study consists of several study modules, each evaluating the safety, tolerability, preliminary efficacy, pharmacokinetics (PK), pharmacodynamics, anti-tumor activity, and immunogenicity of AZD9592, as monotherapy or in combination with anti-cancer agents.

3. Study Design & Methodology

Design Framework:	Type: INTERVENTIONAL, Phase: PHASE1, Status: RECRUITING
Target N:	403

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

- * Age ≥ 18 years
- * Eastern Cooperative Oncology Group (ECOG) Performance Status: 0-1

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

- * Life expectancy ≥ 12 weeks
- * Measurable disease per RECIST v1.1
- * Adequate organ and marrow function as defined in the protocol

Additional Inclusion Criteria for Module 1:

≥ Histologically or cytologically confirmed metastatic or locally advanced EGFRmut., NSCLC; metastatic EGFRwt. NSCLC; recurrent or metastatic HNSCC of the oral cavity; metastatic CRC.

Additional Inclusion Criteria for Module 2:

≥ Histologically or cytologically confirmed metastatic NSCLC EGFRmut.

Additional Inclusion Criteria for Module 3:

≥ Histologically or cytologically confirmed metastatic CRC.

Key Exclusion Criteria:

- * History of (non-infectious) ILD/pneumonitis that required steroids, has current ILD/pneumonitis, or where suspected ILD/pneumonitis cannot be ruled out by imaging at screening.
- * Spinal cord compression or a history of leptomeningeal carcinomatosis.
- * Active infection including tuberculosis and HBV, HCV or HIV
- * Brain metastases unless treated (prior treatment required only for Module 1), asymptomatic, stable, and not requiring continuous corticosteroids at a dose of ≥ 10 mg prednisone/day or equivalent for at least 4 weeks prior to start of study treatment.
- * Participants with cardiac comorbidities as defined in the study protocol

4.2 Exclusion Criteria

- * History of (non-infectious) ILD/pneumonitis that required steroids, has current ILD/pneumonitis, or where suspected ILD/pneumonitis cannot be ruled out by imaging at screening.
- * Spinal cord compression or a history of leptomeningeal carcinomatosis.
- * Active infection including tuberculosis and HBV, HCV or HIV
- * Brain metastases unless treated (prior treatment required only for Module 1), asymptomatic, stable, and not requiring continuous corticosteroids at a dose of ≥ 10 mg prednisone/day or equivalent for at least 4 weeks prior to start of study treatment.
- * Participants with cardiac comorbidities as defined in the study protocol

11. Study Identifiers & Governance

Primary ID: 920616827708809047

Registry Number: NCT05647122

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

Sponsor: AstraZeneca

Study Title: First in Human Study of AZD9592 in Solid Tumors

15. Sign-off & Approval

Principal Investigator: _____ Date: _____

Clinical Operations Lead: _____ Date: _____
