

1. Administrative & Study Identification

**Full Study Title:** Korean Post Marketing Surveillance for Comirnaty Injection (Bretovameran)  
**Short Title/Acronym:** Comirnaty Bretovameran PMS Korea  
**Protocol Number:** N/A (Observational/PMS)  
**NCT Number:** NCT06613984  
**Sponsor Name:** Pfizer  
**Investigational Product:** Comirnaty Injection (Bretovameran) / COVID-19 mRNA Vaccine (Omicron JN.1 subvariant)  
**Phase of Development:** Phase IV / Post-Marketing Surveillance (PMS)  
**Medical Monitor:** Pfizer Pharmacovigilance & Clinical Operations Lead

---

2. Study Synopsis & Rationale

**2.1 Study Objective**  
**Primary Objective:** To evaluate the safety, tolerability, and incidence of adverse events following administration of the Comirnaty Injection (Bretovameran) in a real-world setting as part of Korean post-marketing surveillance.  
**Secondary Objectives:** To monitor the incidence of Serious Adverse Events (SAEs) and specific Adverse Events of Special Interest (AESIs) across various demographic subgroups.

**2.2 Background & Rationale** To fulfill regulatory post-marketing surveillance requirements in South Korea and continuously monitor the real-world safety profile of the updated Comirnaty vaccine (Bretovameran), which has been adapted to target the Omicron JN.1 subvariant of SARS-CoV-2.

---

3. Study Design & Methodology

**3.1 Design Framework**  
**Study Type:** Observational (Post-Marketing Surveillance)  
**Control Type:** Single-arm  
**Blinding:** Open-label  
**Randomization:** N/A

**3.2 Planned Enrollment & Duration**  
**Target N\$:** 660 participants  
**Number of Sites:** Multiple sites in Seoul, South Korea  
**Estimated Study Start:** 01-Jun-2024  
**Estimated Primary Completion:** 31-Dec-2026

---

## 4. Subject Selection (Eligibility Criteria)

**4.1 Inclusion Criteria** 1. Male or female participants receiving the Comirnaty Injection (Bretovameran) in routine clinical practice. 2. Vaccination administered in accordance with local South Korean standard of care and approved labeling. 3. Participants (or their legal guardians) who are willing and able to participate in the surveillance and provide post-vaccination safety data.

**4.2 Exclusion Criteria** 1. Known history of severe allergic reaction (e.g., anaphylaxis) to any component of the Comirnaty vaccine. 2. Concurrent participation in an interventional clinical trial for another investigational COVID-19 vaccine.

---

## 5. Intervention & Treatment Plan

**5.1 Investigational Regimen Dosage/Frequency:** Single dose administration (concentration depending on age group) as per the approved national immunization schedule.

**Route of Administration:** Intramuscular (IM) injection.

**Duration of Treatment:** Single injection with subsequent observational follow-up.

**5.2 Concomitant & Prohibited Therapy Permitted:** Standard concomitant medications for baseline co-morbidities.

**Prohibited:** Other investigational COVID-19 vaccines or conflicting prophylactic therapies during the active observation window.

---

## 6. Study Timeline & Visit Schedule

|                |                            |                                                            |                                                                                                            |
|----------------|----------------------------|------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|
| Visit ID       | Window (Days)              | Key Activities/Procedures                                  | :---                                                                                                       |
| :---           | :---                       | <b>Screening/Baseline</b>                                  | Day 0   Informed Consent, Medical History, Vaccination Administration, Initial Observation                 |
| <b>Interim</b> | Post-Vaccination Follow-up | Safety monitoring, AE/SAE collection, Patient diary review | <b>End of Study</b>   End of Surveillance   Final safety data review, Resolution status of any ongoing AEs |

---

## 7. Outcome Measures (Endpoints)

**7.1 Primary Endpoint Definition:** Incidence, severity, and relatedness of Adverse Events (AEs) and Serious Adverse Events (SAEs) following the administration of Comirnaty Injection.

**Measurement Method:** Patient reports, spontaneous safety reports, and HCP clinician assessments documented in the eCRF during the surveillance period.

**7.2 Secondary & Exploratory Endpoints** \* Incidence of Adverse Events of Special Interest (AESIs), such as myocarditis or pericarditis. \* Overall safety and tolerability stratified by specific patient demographics (e.g., age cohorts, underlying comorbidities).

---

## **8. Safety & Adverse Event Reporting**

**Adverse Event (AE) Monitoring:** Collection via patient diary, spontaneous reporting mechanisms, and routine HCP follow-up.  
**Serious Adverse Events (SAEs):** Must be reported to the sponsor's pharmacovigilance team within 24 hours of site awareness. **Data Monitoring Committee (DMC):** Internal Pfizer Pharmacovigilance and Safety Review Committee.

---

## **9. Statistical Analysis Plan (SAP) Summary**

**Analysis Populations:** Safety Set (all registered individuals who receive the vaccine and have at least one post-baseline safety assessment). **Sample Size Justification:**  $N = 660$  based on local regulatory post-marketing surveillance guidelines to provide adequate descriptive safety data. **Handling of Missing Data:** Missing data will not be imputed; all descriptive statistics will be based on observed data only.

---

## **10. Quality Assurance & Regulatory Compliance**

**GCP Compliance:** This study will be conducted in accordance with Good Pharmacoepidemiology Practices (GPP) and local South Korean regulatory requirements for post-marketing surveillance.  
**Monitoring Plan:** Routine pharmacovigilance monitoring and verification of source documents for reported AESIs and SAEs.  
**Audit Trail:** Secure eCRF locking, tracking of safety reports, and query resolution via standard data management mechanisms.

---

## **11. Study Identifiers & Governance**

**Primary ID:** N/A **Registry Number:** NCT06613984 **Sponsor/Lead Organization:** Pfizer **Study Title:** Korean Post Marketing Surveillance for Comirnaty Injection (Bretovameran) **Official Regulatory Title:** Korean Post Marketing Surveillance for Comirnaty Injection (Bretovameran)

---

## **12. Clinical Framework (COVID-19 Vaccination Specific)**

**Primary Condition:** COVID-19 Vaccination **Diagnosis Threshold:** N/A (Prophylactic Immunization) **Medical Methodology:** Active mRNA

Immunization **Optimization Target:** Real-world vaccine safety, reactogenicity, and tolerability monitoring

---

### 13. Study Procedures & Methodology

**Management Pathway:** Standard national COVID-19 immunization pathway **Education Protocol (HCP):** Vaccine preparation, handling, administration, and strict AE/SAE pharmacovigilance reporting **Education Protocol (Patient):** Post-vaccination symptom tracking and instructions on reporting adverse events **Quality Audit Mechanism:** Pharmacovigilance safety tracking and AE reporting compliance audits

---

### 14. Observation & Follow-Up Schedule

**Total Duration:** Standard post-vaccination follow-up window (typically up to 6 months post-administration) **Onsite Visit Cadence:** Baseline (Day 0) vaccination visit **Remote Monitoring Frequency:** Routine post-vaccination telephonic/electronic safety check-ins (e.g., Days 7, 14, 30) **Checklist Review Interval:** End of active surveillance period

---

### 15. Sign-off & Approval

|                          |        |           |               |     |      |     |     |
|--------------------------|--------|-----------|---------------|-----|------|-----|-----|
| Role                     | Name   | Signature | Date          | :-- | :--  | :-- | :-- |
| Principal Investigator   | [Name] | _____     | [DD-MMM-YYYY] |     |      |     |     |
| Clinical Operations Lead | [Name] | _____     | [DD-MMM-YYYY] |     | Lead |     |     |
| Statistician             | [Name] | _____     | [DD-MMM-YYYY] |     |      |     |     |
