

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	CIBINQO? Pregnancy Registry: An Observational Study of the Safety of Abrocitinib Exposure in Pregnant Women and Their Offspring
Short Title:	A Study of How Safe Abrocitinib (CIBINQO) is in Pregnant Women and Their Offspring
Protocol Number:	167610708350346724
NCT Number:	NCT05721937
Sponsor Name:	Pfizer
Investigational Product:	abrocitinib
Phase:	Not Applicable
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. Percent of live birth children with major congenital malformations: An abnormality of body structure or function that is present at birth, is of prenatal origin (i.e., birth defect), has significant medical, social, or cosmetic consequences for the affected individual, and typically requires medical intervention.
Secondary Obj.:	1. Percent of participants with children with minor congenital malformations 2. Percent of participants with spontaneous abortion 3. Percent of participants with stillbirths

2.2 Background & Rationale

The purpose of this observational study is to learn about the safety of abrocitinib (CIBINQO) in pregnant women and the offspring.

3. Study Design & Methodology

Design Framework:	Type: OBSERVATIONAL, Status: RECRUITING
Target N:	400

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

- * Women of any age who are currently or recently pregnant (recently pregnant defined as enrollment within 1 year of pregnancy outcome)
- * Consent to participate in this study and evidence of a personally signed and dated informed consent document indicating that the patient (or a legally acceptable representative) has been informed of all pertinent aspects of the study
- * Authorization for her healthcare provider(s) to provide data to the registry
- * Must receive at least one dose of CIBINQO at any time during pregnancy or prior to pregnancy (within 1 day prior to the date of conception) OR have a diagnosis of moderate-to-severe atopic dermatitis at any time prior to pregnancy
