

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	Deucravacitinib in Routine Clinical Practice: A 5-year, Multicenter, Prospective, Non-Interventional Cohort Study to Evaluate Effectiveness and Quality of Life in Patients With Moderate-to-Severe Plaque Psoriasis in Germany (DELPHIN)
Short Title:	A Study to Evaluate Deucravacitinib in Participants With Moderate-to-Severe Plaque Psoriasis in Germany
Protocol Number:	425090069803687444
NCT Number:	NCT06104644
Sponsor Name:	Bristol Myers Squibb
Investigational Product:	deucravacitinib
Phase:	Not Applicable
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. Proportion of patients achieving an absolute Psoriasis Area Severity Index (aPASI) score ≥ 3 at Week 24 or nearest visit
Secondary Obj.:	1. Effectiveness of deucravacitinib treatment measured by the number of participants who achieve an absolute Psoriasis Area Severity Index (aPASI) score ≥ 3 and ≥ 6 2. Effectiveness of deucravacitinib treatment measured by the number of participants who achieve Psoriasis Area Severity Index (PASI) 75/90/100 3. Effectiveness of deucravacitinib treatment measured by the number of participants who achieved static Physician's Global Assessment (sPGA) 0/1 and change in sPGA over time

2.2 Background & Rationale

The purpose of this observational study is to describe the effectiveness of deucravacitinib treatment and quality of life in adults with moderate-to-severe plaque psoriasis in routine clinical practice in Germany over a 5-year period

3. Study Design & Methodology

Design Framework:	Type: OBSERVATIONAL, Status: ACTIVE_NOT_RECRUITING
Target N:	550

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

- * Patients with a physician-reported diagnosis of moderate-to-severe plaque psoriasis initiating deucravacitinib according to approved label in the European Union
- * The decision upon treatment with deucravacitinib must have been made before enrollment and independently of this

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

non-interventional observational study

- * Patient is at least 18 years of age at the time of treatment decision
- * Patient provided written informed consent to participate in the study

4.2 Exclusion Criteria

- * Any contraindications according to the approved deucravacitinib Summary of Product Characteristics
- * Prior treatment with deucravacitinib
- * Simultaneous participation in an interventional clinical trial for moderate-to-severe psoriasis

11. Study Identifiers & Governance

Primary ID:	425090069803687444
Registry Number:	NCT06104644
Sponsor:	Bristol Myers Squibb
Study Title:	A Study to Evaluate Deucravacitinib in Participants With Moderate-to-Severe Plaque Psoriasis in Germany

15. Sign-off & Approval
