

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	Retrospective Evaluation of Nivolumab in Adjuvant Esophageal Cancer/Gastroesophageal Junction Cancer: A Non-interventional Study in China
Short Title:	Retrospective Evaluation of Nivolumab in Adjuvant Esophageal Cancer/Gastroesophageal Junction Cancer
Protocol Number:	798177544169683806
NCT Number:	NCT06499298
Sponsor Name:	Bristol Myers Squibb
Investigational Product:	nivolumab
Phase:	Not Applicable
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. Participant disease-free survival (DFS)
Secondary Obj.:	1. Participant socio-demographics 2. Date of tumor initial diagnosis 3. Tumor location at initial diagnosis

2.2 Background & Rationale

The purpose of this study is to describe the real-world effectiveness and patterns of use of adjuvant nivolumab in adult participants with Stage II/III Esophageal Cancer/Gastroesophageal Junction Cancer (EC/GEJC) in China.

3. Study Design & Methodology

Design Framework:	Type: OBSERVATIONAL, Status: COMPLETED
Target N:	64

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

- * Participants aged 18 years or older at the index date
- * All patients must have Stage II or Stage III carcinoma of the esophagus or gastroesophageal junction and have histologically or cytologically confirmed predominant adenocarcinoma or squamous cell carcinoma esophageal or gastroesophageal junction cancer at the time of initial diagnosis.
- * Participants initiated nivolumab in adjuvant Esophageal Cancer (EC) or gastroesophageal junction cancer (GEJC) treatment within the index window.

4.2 Exclusion Criteria

- * Participation in a clinical trial of an investigational drug concurrently during the adjuvant nivolumab treatment.
- * From the date of diagnosis of EC or GJEC to data end period, patients were diagnosed with a primary diagnosis of a

cancer other than EC or GJEC that requires systemic or other treatment

11. Study Identifiers & Governance

Primary ID:	798177544169683806
Registry Number:	NCT06499298
Sponsor:	Bristol Myers Squibb
Study Title:	Retrospective Evaluation of Nivolumab in Adjuvant Esophageal Cancer/Gastroesophageal Junction Cancer
