

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	Expanded Access Use of Adagrasib (MRTX849) for the Treatment of Patients With Advanced Solid Tumors With a KRAS G12C Mutation
Short Title:	Expanded Access of Adagrasib (MRTX849) in Patients With Advanced Solid Tumors Who Have a KRAS G12C Mutation
Protocol Number:	816078724077517332
NCT Number:	NCT05162443
Sponsor Name:	Bristol Myers Squibb
Investigational Product:	adagrasib
Phase:	Not Applicable
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	Not Provided
Secondary Obj.:	Not Provided

2.2 Background & Rationale

The objective of this EAP is to provide expanded access of adagrasib (MRTX849) to patients with previously treated advanced solid tumors harboring a KRAS G12C mutation.

3. Study Design & Methodology

Design Framework:	Type: EXPANDED_ACCESS, Status: APPROVED_FOR_MARKETING
Target N:	N/A

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

- * Histologically or cytologically confirmed diagnosis of an advanced/metastatic solid tumor
- * Confirmed presence of a KRASG12C mutation
- * Ineligible for an ongoing clinical trial of MRTX849
- * No available or not eligible for standard of care treatment
- * Adequate organ function
- * CNS Metastases (within set parameters) are allowed
- * ECOG performance status of ? 2

4.2 Exclusion Criteria

- * History of intestinal disease, inflammatory bowel disease, major gastric surgery, or other gastrointestinal conditions likely to alter absorption of MRTX849 treatment or result in inability to swallow

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

* Prior therapy targeting a KRAS G12C mutation

* Other active cancer

11. Study Identifiers & Governance

Primary ID: 816078724077517332

Registry Number: NCT05162443

Sponsor: Bristol Myers Squibb

Study Title: Expanded Access of Adagrasib (MRTX849) in Patients With Advanced Solid Tumors Who Have a KRAS G12C Mutation

15. Sign-off & Approval
