

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	A Randomized, Double-blind, Placebo-controlled Phase III Study to Evaluate the Efficacy and Safety of Dabrafenib Plus Trametinib in Previously Treated Patients With Locally Advanced or Metastatic, Radio-active Iodine Refractory BRAFV600E Mutation-positive Differentiated Thyroid Cancer (DTC)
Short Title:	Study of Efficacy and Safety of Dabrafenib in Combination With Trametinib in Previously Treated Patients With Metastatic, Radio-active Iodine Refractory BRAF V600E Mutation Positive Differentiated Thyroid Cancer
Protocol Number:	812737524117083827
NCT Number:	NCT04940052
Sponsor Name:	Novartis
Investigational Product:	trametinib
Phase:	PHASE3
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. Progression Free Survival (PFS): Progression Free Survival (PFS) was defined as the time from the date of randomization to the date of the first documented progression according to RECIST 1.1 based on Blinded Independent Review Committee (BIRC) assessment, or death due to any cause.
Secondary Obj.:	1. Overall Response Rate (ORR) 2. Overall Survival (OS) 3. Duration of Response (DOR)

2.2 Background & Rationale

The purpose of this study is to assess the efficacy and safety of dabrafenib in combination with trametinib for treating adult patients with locally advanced or metastatic Differentiated Thyroid Cancer (DTC) harboring the BRAFV600E mutation, who are refractory to radioactive iodine (RAI) therapy and have experienced disease progression following one or two prior VEGFR-targeted treatments.

3. Study Design & Methodology

Design Framework:	Type: INTERVENTIONAL, Phase: PHASE3, Status: ACTIVE_NOT_RECRUITING
Target N:	153

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

* Signed informed consent

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

- * Male or female ? 18 years of age at time of informed consent
- * Histologically or cytologically confirmed diagnosis of advanced/metastatic differentiated thyroid carcinoma
- * Radioactive-iodine refractory disease
- * BRAF V600E mutation-positive tumor sample as per central laboratory result
- * Has progressed on at least 1 but not more than 2 prior VEGFR targeted therapies
- * Eastern Cooperative Oncology Group (ECOG) performance status ? 2
- * At least one measurable lesion as defined by RECIST v1.1.

Key Exclusion Criteria:

- * Anaplastic or medullary carcinoma of the thyroid
- * Previous treatment with a BRAF inhibitor and/or a MEK inhibitor
- * Concomitant RET Fusion-Positive Thyroid Cancer
- * Treatment with any type of small molecule kinase inhibitor (including investigational kinase inhibitor) within 2 weeks before randomization
- * Treatment with any type of anticancer antibody (including investigational antibody) or systemic chemotherapy within 4 weeks before randomization
- * Treatment with radiation therapy for bone metastasis within 2 weeks or any other radiation therapy within 4 weeks before randomization
- * A history or current evidence/risk of retinal vein occlusion (RVO) or central serous retinopathy

Other inclusion/exclusion criteria may apply.

4.2 Exclusion Criteria

- * Anaplastic or medullary carcinoma of the thyroid
- * Previous treatment with a BRAF inhibitor and/or a MEK inhibitor
- * Concomitant RET Fusion-Positive Thyroid Cancer
- * Treatment with any type of small molecule kinase inhibitor (including investigational kinase inhibitor) within 2 weeks before randomization
- * Treatment with any type of anticancer antibody (including investigational antibody) or systemic chemotherapy within 4 weeks before randomization
- * Treatment with radiation therapy for bone metastasis within 2 weeks or any other radiation therapy within 4 weeks before randomization
- * A history or current evidence/risk of retinal vein occlusion (RVO) or central serous retinopathy

Other inclusion/exclusion criteria may apply.

11. Study Identifiers & Governance

Primary ID:	812737524117083827
Registry Number:	NCT04940052
Sponsor:	Novartis

Clinical Study Summary Report (CSSR)
