Document Status: Final | Version: 1.0 | Date: 01-APR-2026

## 1. Administrative & Study Identification

|                          |                                                                                                                                                                                                                                                       |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Full Study Title:        | A Phase III, Randomized, Placebo-controlled, Double-blind, Multi-center, International Study of Durvalumab Given Concurrently With Platinum-based Chemoradiation Therapy in Patients With Locally Advanced, Unresectable NSCLC (Stage III) (PACIFIC2) |
| Short Title:             | Study of Durvalumab Given With Chemoradiation Therapy in Patients With Unresectable Non-small Cell Lung Cancer                                                                                                                                        |
| Protocol Number:         | 1103866201621950379                                                                                                                                                                                                                                   |
| NCT Number:              | NCT03519971                                                                                                                                                                                                                                           |
| Sponsor Name:            | AstraZeneca                                                                                                                                                                                                                                           |
| Investigational Product: | cisplatin                                                                                                                                                                                                                                             |
| Phase:                   | PHASE3                                                                                                                                                                                                                                                |
| Medical Monitor:         | [Not Provided in Posting]                                                                                                                                                                                                                             |

## 2. Study Synopsis & Rationale

### 2.1 Study Objective

|                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Primary Objective: | 1. Progression-Free Survival (PFS): The PFS per Response Evaluation Criteria in Solid Tumors, version 1.1 (RECIST 1.1) using blinded independent central review (BICR) assessments was defined as the time from the date of randomization until the date of objective PD or death (by any cause in the absence of progression) regardless of whether the participant withdrew from therapy or received another anti-cancer therapy prior to progression. The PD was defined as at least a 20% increase in the sum of diameters of target lesions. Median PFS was calculated using the Kaplan-Meier technique. |
| Secondary Obj.:    | 1. Objective Response Rate (ORR) 2. Overall Survival (OS) 3. Percentage of Participants Alive at 24 Months From Randomization (OS24)                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

### 2.2 Background & Rationale

This is a Phase III, randomized, double-blind, placebo-controlled, multi-center, international study assessing the efficacy and safety of durvalumab given concurrently with platinum-based CRT (durvalumab + standard of care \[SoC\] CRT) in patients with locally advanced, unresectable NSCLC (Stage III).

## 3. Study Design & Methodology

|                   |                                                                    |
|-------------------|--------------------------------------------------------------------|
| Design Framework: | Type: INTERVENTIONAL, Phase: PHASE3, Status: ACTIVE_NOT_RECRUITING |
| Target N:         | 328                                                                |

## 4. Subject Selection (Eligibility Criteria)

### 4.1 Inclusion Criteria

# Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

Not Provided

## 4.2 Exclusion Criteria

Not Provided

## 11. Study Identifiers & Governance

**Primary ID:** 1103866201621950379

**Registry Number:** NCT03519971

**Sponsor:** AstraZeneca

**Study Title:** Study of Durvalumab Given With Chemoradiation Therapy in Patients With Unresectable Non-small Cell Lung Cancer

## 15. Sign-off & Approval

Principal Investigator: \_\_\_\_\_ Date: \_\_\_\_\_

Clinical Operations Lead: \_\_\_\_\_ Date: \_\_\_\_\_
