

# Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

## 1. Administrative & Study Identification

|                          |                                                                                                                                                                                                                                                                                                                            |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Full Study Title:        | A Randomized, Double Blind, Multicenter Phase 3 Trial of BMS-986489 (BMS-986012+Nivolumab Fixed Dose Combination) in Combination With Carboplatin Plus Etoposide vs Atezolizumab in Combination With Carboplatin Plus Etoposide as First-Line Therapy in Participants With Extensive-Stage Small Cell Lung Cancer (TIGOS). |
| Short Title:             | A Study to Compare the Efficacy and Safety of BMS-986489 (BMS-986012+ Nivolumab Fixed Dose Combination) in Combination With Carboplatin Plus Etoposide to That of Atezolizumab With Carboplatin Plus Etoposide as First-Line Therapy in Participants With Extensive-Stage Small Cell Lung Cancer (TIGOS).                  |
| Protocol Number:         | 230841244700065827                                                                                                                                                                                                                                                                                                         |
| NCT Number:              | NCT06646276                                                                                                                                                                                                                                                                                                                |
| Sponsor Name:            | Bristol Myers Squibb                                                                                                                                                                                                                                                                                                       |
| Investigational Product: | etoposide                                                                                                                                                                                                                                                                                                                  |
| Phase:                   | PHASE3                                                                                                                                                                                                                                                                                                                     |
| Medical Monitor:         | [Not Provided in Posting]                                                                                                                                                                                                                                                                                                  |

## 2. Study Synopsis & Rationale

### 2.1 Study Objective

|                    |                                                                                                                                                                                                                                                                                                                                   |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Primary Objective: | 1. Overall Survival (OS)                                                                                                                                                                                                                                                                                                          |
| Secondary Obj.:    | 1. Time to definitive deterioration (TTDD)based on the LCSS ASBI defined as the time from randomization until a definitive clinically meaningful decline (? 10 point increase from baseline in LCSS ASBI score). 2. Number of participants with Adverse Events (AEs) 3. Number of Participants with Serious Adverse Events (SAEs) |

### 2.2 Background & Rationale

The Purpose of the Study is to Compare the Efficacy and Safety of BMS-986489 (Anti-fucosyl-GM1+ Nivolumab Fixed Dose Combination) in Combination with Carboplatin plus Etoposide to that of Atezolizumab with Carboplatin plus Etoposide as First-Line Therapy in Participants with Extensive-Stage Small Cell Lung Cancer.

## 3. Study Design & Methodology

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Design Framework: | Type: INTERVENTIONAL, Phase: PHASE3, Status: RECRUITING |
| Target N:         | 530                                                     |

## 4. Subject Selection (Eligibility Criteria)

### 4.1 Inclusion Criteria

Not Provided

# Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

## 4.2 Exclusion Criteria

Not Provided

## 11. Study Identifiers & Governance

|                  |                                                                                                                                                                                                                                                                                                           |
