

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	A Phase II/III Multicenter Study Evaluating the Efficacy and Safety of Multiple Targeted Therapies as Treatments for Patients With Advanced or Metastatic Non-Small Cell Lung Cancer (NSCLC) Harboring Actionable Somatic Mutations Detected in Blood (B-FAST: Blood-First Assay Screening Trial)
Short Title:	A Study to Evaluate the Efficacy and Safety of Multiple Targeted Therapies as Treatments for Participants With Non-Small Cell Lung Cancer (NSCLC)
Protocol Number:	992015398509459613
NCT Number:	NCT03178552
Sponsor Name:	Roche
Investigational Product:	cisplatin
Phase:	PHASE2, PHASE3
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. Cohort A: Percentage of Participants with Confirmed Objective Response as Assessed by the Investigator Based on the Response Evaluation Criteria in Solid Tumors (RECIST) Version (v) 1.1 2. Cohort B: Percentage of Participants with Confirmed Objective Response as Assessed by the Investigator Based on RECIST v1.1 3. Cohort C: Progression Free Survival (PFS) as Assessed by the Investigator Based on RECIST v1.1 in bTMB PP1
Secondary Obj.:	1. Cohorts A-F: Duration of Response (DOR) as Assessed by the Investigator Based on RECIST v1.1 2. Cohorts A, B and D: Percentage of Participants with Clinical Benefit Response as Assessed by the Investigator Based on RECIST v1.1 3. Cohorts A, B, D, F: PFS as Assessed by the Investigator Based on RECIST v1.1

2.2 Background & Rationale

This is a phase 2/3, global, multicenter, open-label, multi-cohort study designed to evaluate the safety and efficacy of targeted therapies or immunotherapy as single agents or in combination in participants with unresectable, advanced or metastatic NSCLC determined to harbor oncogenic somatic mutations or positive by tumor mutational burden (TMB) assay as identified by a blood-based next-generation sequencing (NGS) circulating tumor DNA (ctDNA) assay.

3. Study Design & Methodology

Design Framework:	Type: INTERVENTIONAL,	Phase: PHASE2,	PHASE3,	Status:
	ACTIVE_NOT_RECRUITING			
Target N:	1000			

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

- * Histologically or cytologically confirmed diagnosis of unresectable Stage IIIb not amenable to treatment with combined modality chemoradiation (advanced) or Stage IV (metastatic) NSCLC
- * Eastern Cooperative Oncology Group (ECOG) Performance Status 0-2
- * Measurable disease
- * Adequate recovery from most recent systemic or local treatment for cancer
- * Adequate organ function
- * Life expectancy greater than or equal to ($\geq$) 12 weeks
- * For female participants of childbearing potential and male participants, willingness to use acceptable methods of contraception

4.2 Exclusion Criteria

- * Inability to swallow oral medication
- * Women who are pregnant or lactating
- * Symptomatic, untreated CNS metastases
- * History of malignancy other than NSCLC within 5 years prior to screening with the exception of malignancies with negligible risk of metastasis or death
- * Significant cardiovascular disease, such as New York Heart Association cardiac disease (Class II or greater), myocardial infarction, or cerebrovascular accident within 3 months prior to randomization, unstable arrhythmias, or unstable angina
- * Known active or uncontrolled human immunodeficiency virus (HIV) infection
- * Either a concurrent condition or history of a prior condition that places the patient at unacceptable risk if he/she were treated with the study drug or confounds the ability to interpret data from the study
- * Inability to comply with other requirements of the protocol

11. Study Identifiers & Governance

Primary ID:	992015398509459613
Registry Number:	NCT03178552
Sponsor:	Roche
Study Title:	A Study to Evaluate the Efficacy and Safety of Multiple Targeted Therapies as Treatments for Participants With Non-Small Cell Lung Cancer (NSCLC)

15. Sign-off & Approval

Principal Investigator: _____ Date: _____
Clinical Operations Lead: _____ Date: _____
Lead Statistician: _____ Date: _____
