

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	Post Marketing Surveillance (PMS) Study for Ngenla Prefilled Pen in Pediatric Patients Who Have Endogenous Growth Failure Due to an Inadequate Secretion of Endogenous Growth Hormone in Korea
Short Title:	Korean Post-marketing Surveillance Ngenla® Pre-filled Pen Injection for the Treatment of Pediatric Patients With Growth Disturbance Due to Insufficient Secretion of Growth Hormone
Protocol Number:	380284580193534615
NCT Number:	NCT05509894
Sponsor Name:	Pfizer
Investigational Product:	somatrogon
Phase:	Not Applicable
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. Incidence of adverse events (AEs)
Secondary Obj.:	1. Change from baseline in Annualized Height Velocity in cm/year 2. Change from baseline in Height Standard Deviation Score 3. Change from baseline in Bone Maturation (BM)

2.2 Background & Rationale

This non-interventional study will be performed by design of post-marketing surveillance (PMS) as an additional pharmacovigilance activity of the Risk Management Plan (RMP) for Ngenla® pre-filled pen injection, which is required by the Ministry of Food and Drug Safety (MFDS) according to the local regulation. This post-marketing surveillance will investigate the safety and effectiveness of Ngenla® pre-filled pen injection as the treatment of children and adolescents from 3 years of age with growth disturbance due to insufficient secretion of growth hormone during 6 years under the setting of routine practice in Korea.

3. Study Design & Methodology

Design Framework:	Type: OBSERVATIONAL, Status: ACTIVE_NOT_RECRUITING
Target N:	565

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

1. Children and adolescents from 3 years of age with growth disturbance due to insufficient secretion of growth hormone who have received treatment with somatarogon or have been determined to start treatment with somatrogon

according to the approved indications of the medicinal product;

2\ Evidence of a personally signed and dated informed consent document indicating that the patient or their parent(s)/legal guardian, if applicable, have been informed of all pertinent aspects of the study.

4.2 Exclusion Criteria

1. Patients concurrently participating in other studies involving therapeutic interventions and/or investigational products;
2. Patients who have contraindications to somatogron as specified in the approved LPD.
3. Patients with hypersensitivity or case history to somatogron or to any of the excipients in the product

11. Study Identifiers & Governance

Primary ID:	380284580193534615
Registry Number:	NCT05509894
Sponsor:	Pfizer
Study Title:	Korean Post-marketing Surveillance Ngenla® Pre-filled Pen Injection for the Treatment of Pediatric Patients With Growth Disturbance Due to Insufficient Secretion of Growth Hormone
