

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	Real World Clinical Outcomes of Resected ALK-Positive Early Stage NSCLC Patients Treated With Alectinib as Adjuvant Therapy in China: A Multicenter, Prospective Cohort Study
Short Title:	Real World Clinical Outcomes of Resected ALK-Positive Early Stage NSCLC Patients Treated With Alectinib as Adjuvant Therapy
Protocol Number:	557191149958509585
NCT Number:	NCT06862869
Sponsor Name:	Roche
Investigational Product:	alectinib
Phase:	Not Applicable
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. Real-world disease-free survival (rwDFS)
Secondary Obj.:	1. Duration of alectinib therapy 2. Participant demographics by disease stage and city tier 3. Participant clinical characteristics as determined by Eastern Cooperative Oncology Group performance status (ECOG PS) by disease stage and city tier

2.2 Background & Rationale

This study is a multicenter, prospective, cohort study designed to evaluate the clinical outcomes and characteristics of resected stage II-IIIB anaplastic lymphoma kinase (ALK)-positive non-small-cell lung cancer (NSCLC) adult patients treated with Alectinib as adjuvant therapy in China.

3. Study Design & Methodology

Design Framework:	Type: OBSERVATIONAL, Status: RECRUITING
Target N:	800

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

- * Histologically-confirmed stage II-IIIA or selected IIIB (T3N2) NSCLC as per the American Joint Committee on Cancer and International Union Against Cancer (UICC/AJCC), 8th edition
- * ALK positive
- * Postoperative NSCLC patients who have undergone complete resection
- * Had taken Alectinib monotherapy without prior systemic therapy (including other ALK-TKIs or chemotherapy) as adjuvant? therapy for resected stage II-IIIB ALKpositive NSCLC and the time from the first dose to enrollment was no

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

more than 28 days

4.2 Exclusion Criteria

- * Patients participating in interventional study of adjuvant treatment
- * Pregnant, lactating, or breastfeeding women

11. Study Identifiers & Governance

Primary ID:	557191149958509585
Registry Number:	NCT06862869
Sponsor:	Roche
Study Title:	Real World Clinical Outcomes of Resected ALK-Positive Early Stage NSCLC Patients Treated With Alectinib as Adjuvant Therapy

15. Sign-off & Approval

Principal Investigator: _____	Date: _____
Clinical Operations Lead: _____	Date: _____
