

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	Evaluating Effectiveness and Safety of Glofitamab Based Second-Line Therapy in Chinese Adult Patients With Relapsed or Refractory Diffuse Large B-Cell Lymphoma: A Prospective, Observational, Multicenter, Cohort Study
Short Title:	An Observational Study of Glofitamab in Chinese Adult Participants With 2L Diffuse Large B-Cell Lymphoma
Protocol Number:	884494576106495872
NCT Number:	NCT07200375
Sponsor Name:	Roche
Investigational Product:	glofitamab
Phase:	Not Applicable
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. real-world Progression-Free Survival (rwPFS)
Secondary Obj.:	1. Complete Response Rate (CRR) 2. Overall Response Rate (ORR) 3. Disease Control Rate (DCR)

2.2 Background & Rationale

This study will investigate how well glofitamab-based therapy works and how safe it is in Chinese adult participants with relapsed or refractory diffuse large B-cell lymphoma (R/R DLBCL).

3. Study Design & Methodology

Design Framework:	Type: OBSERVATIONAL, Status: RECRUITING
Target N:	300

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

- * Histologically confirmed R/R DLBCL after one line of systemic therapy
- * Will be treated with Glofit-based regimen (known as being recommended and having the intention to be treated with Glofitamab at the time of signing ICF) or have initiated Glofit-based regimen treatment within three months (90 days) prior to enrollment

4.2 Exclusion Criteria

- * Participants who currently participate in or plan to participate in any interventional clinical trial

11. Study Identifiers & Governance

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026
