

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	A Phase I, Randomized, Investigator/Participant-Blind, Placebo-Controlled, Fixed-Sequence Study to Investigate the Safety, Tolerability, and Pharmacokinetics of Multiple Doses of Orally Administered RO7795081 and the Effect of Steady-State Dose of Orally Administered RO7795081 on the Pharmacokinetics of Pitavastatin and Rosuvastatin in Otherwise Healthy Overweight or Obese Adult Participants
Short Title:	A Study Investigating the Safety of RO7795081 and the Effect of RO7795081 on How the Body Processes Pitavastatin and Rosuvastatin in Otherwise Healthy Overweight or Obese Adult Participants
Protocol Number:	95830425141304468
NCT Number:	NCT06982131
Sponsor Name:	Roche
Investigational Product:	rosuvastatin
Phase:	PHASE1
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. Incidence and Severity of Adverse Events 2. Incidence of Abnormal Clinical Laboratory Test Results 3. Incidence of Abnormal Vital Sign Assessments
Secondary Obj.:	1. Plasma Concentration of RO7795081 Over Time, Administered Alone and in Combination with Rosuvastatin and Pitavastatin 2. Cmax of RO7795081, Administered Alone and in Combination with Rosuvastatin and Pitavastatin 3. Tmax of RO7795081, Administered Alone and in Combination with Rosuvastatin and Pitavastatin

2.2 Background & Rationale

This is a randomized, investigator-and-participant-blind, placebo-controlled, fixed sequence, cross-over, Phase 1 study to investigate the safety, tolerability, and pharmacokinetics of multiple doses of orally administered RO7795081 and the effect of a steady-state dose of orally administered RO7795081 on the pharmacokinetics of pitavastatin and rosuvastatin in otherwise healthy, overweight or obese adult participants.

3. Study Design & Methodology

Design Framework:	Type: INTERVENTIONAL, Phase: PHASE1, Status: RECRUITING
Target N:	40

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

- * Healthy participants with no clinically relevant findings on physical examination at screening and at baseline (including detailed medical and surgical history, vital signs, 12-lead ECG, hematology, blood chemistry, and urinalysis); with no suspicion of cognitive impairment or dementia as judged by the Investigator; who are not under judicial supervision, guardianship, or curatorship.
- * Body Mass Index (BMI) ≥ 27.0 kg/m² at screening and on Day -1 of Period 1
- * Stable body weight (defined as $\leq 5\%$ gain or loss) in the 2 months prior to screening as per verbal report by the participant and for the period between screening and Day -1 of Period 1 as per measured weight
- * Agreement to adhere to the contraception requirements

4.2 Exclusion Criteria

- * Pregnant, breastfeeding, or intending to become pregnant during the study
- * Any condition or disease detected during the medical interview or physical examination that would render the participant unsuitable for the study, place the participant at undue risk, or interfere with the ability of the participant to complete the study in the opinion of the Investigator
- * History or presence of any clinically significant cardiovascular, broncho-pulmonary, hepatic, renal, gastrointestinal, endocrinological, hematological, neurological, psychiatric, or metabolic disorders, allergic diseases, hypofertility, cancer, or cirrhosis
- * History or evidence of any medical condition capable of significantly altering the absorption, metabolism, or elimination of drugs
- * History of convulsions (other than benign febrile convulsions of childhood) including epilepsy, or personal history of significant cerebral trauma or CNS infections (e.g., meningitis)
- * History of acute or chronic metabolic acidosis, including diabetic ketoacidosis with or without coma

11. Study Identifiers & Governance

Primary ID: 95830425141304468

Registry Number: NCT06982131

Sponsor: Roche

Study Title: A Study Investigating the Safety of RO7795081 and the Effect of RO7795081 on How the Body Processes Pitavastatin and Rosuvastatin in Otherwise Healthy Overweight or Obese Adult Participants

15. Sign-off & Approval
