

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	A Randomized, Double-blind, Placebo-controlled Phase III Study to Evaluate the Efficacy and Safety of Remibrutinib in Patients With Secondary Progressive Multiple Sclerosis
Short Title:	A Study to Evaluate the Efficacy and Safety of Remibrutinib in Secondary Progressive Multiple Sclerosis
Protocol Number:	179655037608760523
NCT Number:	NCT07225504
Sponsor Name:	Novartis
Investigational Product:	ibrutinib
Phase:	PHASE3
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. Time to 6-month confirmed disability progression (6mCDP) on Expanded Disability Status Scale (EDSS): The EDSS is an ordinal scale used for assessing neurologic impairment in MS based on a neurological examination. It consists of scores in each of seven functional systems and an ambulation score that are then combined to determine the EDSS steps (ranging from 0 (normal) to 10 (death due to MS)). 6mCDP is defined as an increase from baseline in EDSS sustained for at least 6 months.
Secondary Obj.:	1. Time to 3-month confirmed disability progression (3mCDP) on EDSS 2. Time to 6-month confirmed disability improvement (6mCDI) on EDSS 3. Time to 3-month worsening by at least 20% in Timed 25-Foot Walk (T25FW)

2.2 Background & Rationale

The purpose of this study is to provide efficacy and safety data for remibrutinib in patients with secondary progressive multiple sclerosis (SPMS)

3. Study Design & Methodology

Design Framework:	Type: INTERVENTIONAL, Phase: PHASE3, Status: NOT_YET_RECRUITING
Target N:	1275

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

- * Signed informed consent must be obtained prior to any assessment performed.
- * Male or female participants aged 18-65 (inclusive) at Screening.
- * Diagnosis of SPMS according to the 2017 revised McDonald criteria (Thompson et al 2018) at Screening.
- * Absence of documented clinical relapses in the 24 months before Screening and randomization.
- * EDSS score of 3.0 to 6.0 (inclusive) at Screening.
- * Documented evidence of disability progression in the 12 months before Screening.

4.2 Exclusion Criteria

- * Unwilling or unable to undergo MRI scans as per protocol (for example, claustrophobia, or presents absolute contraindications to MRI (e.g., metallic implants, metallic foreign bodies, pacemaker, defibrillator)).
- * History of clinically significant central nervous system (CNS) disease (e.g. stroke, traumatic brain or spinal injury, history or presence of myelopathy) or neurological disorders which may mimic multiple sclerosis (MS).
- * Ongoing substance abuse (drug or alcohol) or any other factor (e.g. serious psychiatric condition) that may interfere with the participant's ability to cooperate and comply with the study procedures.
- * Participants with history of confirmed Progressive Multifocal Leukoencephalopathy (PML) or neurological symptoms consistent with PML.
- * Women of childbearing potential (WOCBP), defined as all women physiologically capable of becoming pregnant from menarche until becoming post-menopausal, unless they are using highly effective methods of contraception (failure rate $\leq$ 1% per year) while taking study treatment and for at least 1 week after stopping study treatment.
- * Significant bleeding risk or coagulation disorders, at Screening.
- * Use of exclusionary medication prior to Screening/randomization as listed in the protocol.

Other protocol-defined inclusion/exclusion criteria may apply

11. Study Identifiers & Governance

Primary ID:	179655037608760523
Registry Number:	NCT07225504
Sponsor:	Novartis
Study Title:	A Study to Evaluate the Efficacy and Safety of Remibrutinib in Secondary Progressive Multiple Sclerosis

15. Sign-off & Approval

Principal Investigator: _____	Date: _____
Clinical Operations Lead: _____	Date: _____
Lead Statistician: _____	Date: _____
