

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	Open Label, Multi-center Roll-over Study to Assess Long Term Safety in Patients Who Have Completed a Global Novartis or GSK Sponsored Dabrafenib and/or Trametinib Study
Short Title:	Dabrafenib and/or Trametinib Rollover Study
Protocol Number:	277177119996639635
NCT Number:	NCT03340506
Sponsor Name:	Novartis
Investigational Product:	trametinib
Phase:	PHASE4
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective: 1. Occurrences of adverse events to evaluate long term safety and tolerability of dabrafenib, trametinib or combination: Clinical and laboratory assessments should be completed based on the local standard of care and physician practice for routine safety monitoring. More frequent examinations may be performed at the Investigator's discretion if medically indicated. Any abnormalities considered clinically significant, induce clinical signs or symptoms, or require changes in treatment constitute an adverse event.

Secondary Obj.: 1. Clinical Benefit Assessment by investigator

2.2 Background & Rationale

This study is to provide access for patients who are receiving treatment with dabrafenib and/or trametinib in a Novartis-sponsored Oncology Global Development, Global Medical Affairs or a former GSK-sponsored study who have fulfilled the requirements for the primary objective, and who are judged by the investigator as benefiting from continued treatment in the parent study as judged by the Investigator at the completion of the parent study.

3. Study Design & Methodology

Design Framework:	Type: INTERVENTIONAL, Phase: PHASE4, Status: RECRUITING
Target N:	100

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

* Patient is currently receiving treatment with dabrafenib/trametinib monotherapy or combination within a Novartis or former GSK sponsored study which has fulfilled the requirements for the primary objective.

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

* In the opinion of the Investigator would benefit from continued treatment.

4.2 Exclusion Criteria

* Patient has been previously permanently discontinued from study treatment in the parent protocol.

* Patient's indication is commercially available and reimbursed in the local country.

* Patient currently has unresolved toxicities for which dabrafenib and/or trametinib dosing has been interrupted in the parent study.

11. Study Identifiers & Governance

Primary ID: 277177119996639635

Registry Number: NCT03340506

Sponsor: Novartis

Study Title: Dabrafenib and/or Trametinib Rollover Study

15. Sign-off & Approval
