

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

1. Administrative & Study Identification

Full Study Title:	A PHASE 1b/2 STUDY OF PF-07901801, A CD47 BLOCKING AGENT, WITH TAFASITAMAB AND LENALIDOMIDE FOR PARTICIPANTS WITH RELAPSED/REFRACTORY DIFFUSE LARGE B CELL LYMPHOMA NOT ELIGIBLE FOR STEM CELL TRANSPLANTATION
Short Title:	Effects of Maplirpacept (PF-07901801), Tafasitamab, and Lenalidomide in People With Relapsed or Refractory Diffuse Large B-cell Lymphoma
Protocol Number:	651144921965066195
NCT Number:	NCT05626322
Sponsor Name:	Pfizer
Investigational Product:	lenalidomide
Phase:	PHASE1, PHASE2
Medical Monitor:	[Not Provided in Posting]

2. Study Synopsis & Rationale

2.1 Study Objective

Primary Objective:	1. Phase 1b: Number of Participants With Dose Limiting Toxicities (DLTs): DLTs included: Hematological: Grade (G) 4 thrombocytopenia ($<25,000/\text{microliter}$ [mCL]) lasting ≥ 72 hours or a platelet count $\leq 10,000/\text{mCL}$ at any time, unexplained by underlying disease; $\geq \text{G3}$ thrombocytopenia associated with $\geq \text{G2}$ bleeding, unexplained by underlying disease. G4 anemia; unexplained by underlying disease; G4 neutropenia lasting ≥ 7 days, unexplained by underlying disease; G3 febrile ($>38.3\text{-degree Celsius}$ [$^{\circ}\text{C}$]) neutropenia lasting ≥ 7 days, unexplained by underlying disease; G4 febrile neutropenia unexplained by underlying disease. Non-hematological: any treatment-related $\geq \text{G3}$ non-hematologic toxicity; Other $\geq \text{G2}$ PF-07901801-related non-hematologic toxicities that, in the opinion of the investigator, required a dose reduction or discontinuation of PF-07901801 were considered a DLT.
Secondary Obj.:	1. Phase 1b: Number of Participants With Treatment Emergent Adverse Events (TEAEs) 2. Phase 1b: Number of Participants With Serious Treatment Emergent Adverse Events 3. Phase 1b: Number of Participants With Treatment-Related AEs

2.2 Background & Rationale

The purpose of this study is to learn about the effects of three study medicines [maplirpacept (PF-07901801), tafasitamab, and lenalidomide] when given together for the treatment of diffuse large B-cell lymphoma (DLBCL) that:

3. Study Design & Methodology

Design Framework:	Type: INTERVENTIONAL, Phase: PHASE1, PHASE2, Status: TERMINATED
Target N:	6

Clinical Study Summary Report (CSSR)

Document Status: Final | Version: 1.0 | Date: 01-APR-2026

4. Subject Selection (Eligibility Criteria)

4.1 Inclusion Criteria

- * Histologically confirmed diagnosis of DLBCL
- * Relapsed or refractory disease
- * Participant is not be a candidate for or is unwilling to undergo high dose chemotherapy and subsequent stem cell transplant and/or is unable to receive chimeric antigen receptor (CAR) T-cell therapy
- * Previous treatment with at least one prior line of systemic therapy (for phase 2, at least 1 and no more than 2 prior lines of systemic therapy). Prior therapy must include an anti-CD20 antibody.
- * Adequate bone marrow, hepatic and renal function
- * Eastern Cooperative Oncology Group (ECOG) ?2
- * Must provide a tumor tissue sample (fresh or archival, collected prior to start of treatment) for biomarker analysis

Key Exclusion Criteria:

- * Prior treatment with an anti-CD47 or anti-CD19 (other than CAR T) or immunomodulatory agents
- * Prior allogeneic stem cell transplantation or autologous stem cell transplantation within 12 weeks prior to enrolment
- * Participants with active, uncontrolled bacterial, fungal or viral infection.

4.2 Exclusion Criteria

- * Prior treatment with an anti-CD47 or anti-CD19 (other than CAR T) or immunomodulatory agents
- * Prior allogeneic stem cell transplantation or autologous stem cell transplantation within 12 weeks prior to enrolment
- * Participants with active, uncontrolled bacterial, fungal or viral infection.

11. Study Identifiers & Governance

Primary ID: 651144921965066195

Registry Number: NCT05626322

Sponsor: Pfizer

Study Title: Effects of Maplirpacept (PF-07901801),Tafasitamab, and Lenalidomide in People With Relapsed or Refractory Diffuse Large B-cell Lymphoma

15. Sign-off & Approval
